

Christina Ovari

Building Better Tomorrows
Through Time-Honored Practices

Christina Ovari is the co-owner of international metal roofing specialists, Spengler Industries. She leverages her decades of experience to transform building standards and shows others how to do the same. She's presented in front of hundreds of businesses and conducted tailored talks just for architects and roofing companies.

Her keynote speeches and expertise will not only inspire your attendees during the event, but will compel your audience to walk away with actionable strategies to improve their level of performance in the building industry.

Ditch the status quo in building standards! Gain increased profitability ideas from the foremost expert in the metal roofing industry when you schedule a speaking engagement with the leaders of Spengler Industries.

Changing the World,
One Project At a Time
