

COMPANY OVERVIEW

Spengler Industries delivers custom German-quality metal shingles and panels for roofs and walls, crafted in the USA. Our products address the lack of specialized knowledge in U.S. metal roofing and wall cladding by offering durable, maintenance-free systems with unmatched beauty and flexibility. Led by a German-trained Meisterbrief expert, our team creates tailored solutions that ensure high-quality, precise results for every project. Experience the difference with our permanent, maintenance-free solutions that transform your vision into a lasting masterpiece.

CORE COMPETENCIES

- Spengler Industries is the only North American company with specialized credentials and board certification in restoration, offering metal shingles and panels that deliver both beauty and durability. Our systems enhance projects from residential homes to historic and avant-garde structures, solving complex challenges with lasting, aesthetic solutions.
- Historic Restorations: Restoring historic buildings demands exceptional precision. With experience in castles, cathedrals, and landmarks, and board certification in Germany, we offer permanent, cost-effective solutions that preserve original designs and ensure long-lasting durability.
- Our systems are built to last, using eco-friendly materials that minimize waste. As USGBC members, we provide LEED credits and support efficient building practices like rainscreens and cold roofs, offering unmatched sustainability.

DIFFERENTIATORS

- Exceptional Quality: Our systems blend German precision with modern craftsmanship, offering unmatched reliability and visual appeal for a standout project.
- Long-Term Savings: Avoid costly repairs with our durable, maintenance-free solutions that ensure lasting financial and structural stability.
- Complete Solutions: We provide all-in-one metal building envelope systems, ensuring consistency and expert management while saving time.
- Expert Support: Benefit from our specialized training and consultation to ensure flawless implementation and longevity of systems designed to last over 1,000 years.
- Skilled Trades Support: By partnering with us, you support the skilled trades crisis, as we bring German mastery to the U.S. and invest in workforce training and quality craftsmanship.
