

BUILDING SUSTAINABLY WITH NEDZINK

ZINC HAS A DURABLE ENVIRONMENTAL PROFILE

Due to the protective zinc patina layer, zinc has a very low corrosion rate.

NEDZINK SCORES BEST ON ECO FOOTPRINT

Our Environmental Product Declaration EPD outperforms our competitors.

NEDZINK STANDS FOR QUALITY

NedZink manufacturing and products meet the highest European quality standards.

END-OF-LIFE ZINC IS 100% RECYCLED

Zinc keeps its physical properties after remelting and its very high metal value after the first use phase.
