

# SEVEN ADVANTAGES OF NEDZINK

## ZINC HAS A LONG SERVICE LIFE

A product life of 75 up to 100 years.

## ZINC IS 100% RECYCLABLE

Zinc has a relatively high residual value and is therefore mostly recycled.

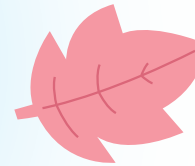

## ZINC IS MAINTENANCE-FREE

Dirt has no effect on zinc.

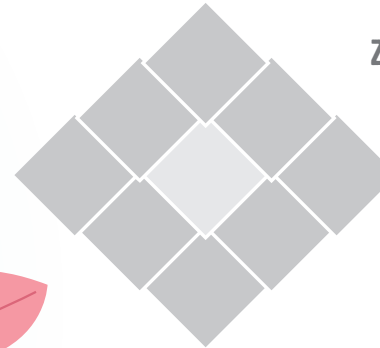

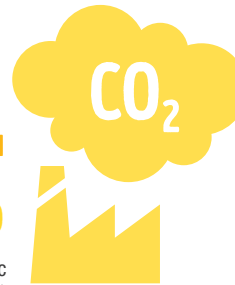

## ZINC HAS AN EXCELLENT ENVIRONMENTAL RECORD

The environmental profile of titanium zinc is outstanding: e.g. due to a low CO<sub>2</sub> (greenhouse gas) contribution and acidification.

## ZINC IS MORE DURABLE THAN ALTERNATIVES

Zinc scores as most sustainable building metal.

## ZINC IS SELF-REPAIRING

Zinc obtains a uniform self-healing patina layer.

## ZINC CAN BE USED UNCONDITIONALLY

Local authorities cannot prohibit zinc, this is against national (government) policy.
